

# BeneTechs Family DisasterGard<sup>SM</sup>

- Family Preparations: developing an “all hazards” approach to effective disaster preparedness
- Risk Assessment: guidance to determine your major perils with practical ways to prepare
- Disaster Response & Evacuation: transmission of evacuation routes and guidelines, news, important contact information, support and returning home
- BeneTechs Specialist-assisted Services: including communications, account access continuity, fraud protection, and document replacement
- One-on-one access to Concierge-level advocates

## Challenge

Have you or a loved one narrowly escaped a disaster? Are you dealing with the aftermath of a disaster? Or currently reading about one and realizing your family is at risk? Where can you and your family turn for affordable help?

## Solution

BeneTechs DisasterGard assists families with creating a personalized disaster response plan, with key components essential to your family’s well-being. These include creating a communications plan, assembling a disaster kit, learning about local services, and ‘returning home’ matters. DisasterGard<sup>SM</sup> also helps your family identify existing risks so they can be addressed before it’s too late. In the event of a disaster, DisasterGard can help protect your family against fraud and identity theft, while retaining access to your secure online accounts.

## Getting Started

You can take advantage of this program for a low cost. Contact BeneTechs today for details.
